

# MAGRON CO.,LTD

Magnetic Substance specialized company

Mag-oil and Mag seal reel  
Water proof

# Magsealed in fishing reel

The reel with magnetic fluid inside the fishing reel is commercialized.

When the fish reel is filled with magnetic fluid, the magnetic fluid forms an oil ring inside it.

The magnetic fluid oil ring acts as a water proof when turning.

Prevent corrosion by preventing the ingress of sea water and river water for a period of time.

This increases the lifespan of the equipment.

Without Magnetic fluid ← → Using Magnetic fluid

# Magsealed in fishing reel

## ● Magsealed

Magnetic fluid is essentially a Superparamagnetic fluid, composed of 10 nanometers of magnetic particles and oil.

Water and salt are highly soluble substances.

Our products are purpose-built Mac-oil to withstand these soluble and corrosive substances.

In particular, sea water salt reduce the life span of the Reel. But Mac-oil can prevent it.

Thus, Mac-oil is more effective in sea water.

Our current product has been validated by a number of Reel repair companies over the years

**Based on MAG-Oil 1ml criteria, it can overhaul around 60times  
1ml = W10 X L10 X H10(mm) = Quantity of 10m<sup>3</sup>**

Bottle Type 0.7ml

Plastic bottle Type 1ml
